

“Aurangabad’s MIT became Emerging Red Hat Certified Training Partner in APAC”

Marathwada Institute of Technology (MIT), Aurangabad (India) has been appreciated by Red Hat Inc. as Emerging Red Hat Certified Training Partner in APAC (Asia Pacific) for its quality training in Red Hat Enterprise Linux and consistency in performance in Linux international certifications :

Red Hat Certified System Administrator (RHCSA) and Red Hat Certified Engineer (RHCE). The certificate of appreciation was awarded to Prof Munish Sharma, Director General, MIT, by Mr Sachin Naik, Sr. Manager, Global Learning Services (GLS) , Red Hat India, Mumbai.

In 2006, MIT and Red Hat India jointly started the Red Hat Enterprise Linux training in MIT campus. Industry defined course contents were delivered to the students of engineering, technology, and the other graduates of the region Marathwada. These trained students assessed by the Red Hat for the real-time performance on live Red Hat server, rigorously tested and finally certified internationally. 560 students accomplished the Red Hat certifications: RHCSA, RHCE till Dec 2012. These students are now serving the companies, Corporate, Enterprises in USA, UK, and India as linux experts, engineers, server analysts, and system administrators .

“Linux is driving 850,000 android mobile

phones, tablets, Stock Exchange Servers, Mission critical applications, mainframe computers, and supercomputers. In India, Kerala state trains the students right from school, college and university. It develops the large number of RHCEs in India. MIT, by noting the global market scope of Enterprise linux, started offering the linux training to the students since 2006. The Red Hat's APAC award has proved that - given an exposure of the high-end technology to the students at right time, students do flourish with flying colors and excel at international level. Now, MIT has started training faculty members from colleges of region of Marathwada which would spread linux skill sets amongst all students of the respective colleges." Expressed by Prof Munish Sharma, Director General, MIT.

MIT's faculty – Red Hat Certified Instructors – Prof B N Kshirsagar, Prof Praveen Deshmukh, Prof Suresh Bhawar, Prof Suresh Gaikwad, Prof Bhaskar Kadam, Prof Shantanu Vyavhare and Prof Daivshala Deshmukh were present for this occasion.
