

Sep 9, 2011: In Red Hat Enterprise Linx 6.0, World's Leading Open source operating System, Twenty-two MITians have accomplished the most challenging and rewarded International certifications. Among the most highly regarded in IT, Red Hat certifications are earned by passing rigorous practical exams in which candidates must actually perform the real-world tasks required in production environments. Red Hat certified professionals ensure that customers get the most from their deployments of Red Hat solutions.

22 MITians achieved Red Hat's International Certifications in Linux
