

YEARLY STATUS REPORT - 2022-2023

Part A

Data of the Institution

1.Name of the Institution

Maharashtra Institute of
Technology, Aurangabad

- Name of the Head of the institution **Dr. Santosh P. Bhosle**
- Designation **Director**
- Does the institution function from its own campus? **Yes**
- Phone No. of the Principal **02402375222**
- Alternate phone No. **9822768246**
- Mobile No. (Principal) **9822768246**
- Registered e-mail ID (Principal) **director.mitt@mit.asia**
- Address **Satara Village Road, Off Beed
bypass, Aurangabad**
- City/Town **Aurangabad**
- State/UT **Maharashtra**
- Pin Code **431010**

2.Institutional status

- Autonomous Status (Provide the date of conferment of Autonomy) **17/02/2021**
- Type of Institution **Co-education**
- Location **Urban**

- Financial Status **Self-financing**
- Name of the IQAC Co-ordinator/Director **Dr. Sayyad Aji**
- Phone No. **02402375233**
- Mobile No: **9175902905**
- IQAC e-mail ID **deanqa.mitt@mit.asia**

3. Website address (Web link of the AQAR (Previous Academic Year)) <https://mit.asia/naac/aqar>

4. Was the Academic Calendar prepared for that year? **Yes**

- if yes, whether it is uploaded in the Institutional website Web link: <https://mit.asia/academic-calendar/>

5. Accreditation Details

Cycle	Grade	CGPA	Year of Accreditation	Validity from	Validity to
Cycle 1	A	3.07	2017	30/10/2017	31/12/2026

6. Date of Establishment of IQAC **09/01/2017**

7. Provide the list of Special Status conferred by Central and/or State Government on the Institution/Department/Faculty/School (UGC/CSIR/DST/DBT/ICMR/TEQIP/World Bank/CPE of UGC, etc.)?

Institution/ Department/Faculty/School	Scheme	Funding Agency	Year of Award with Duration	Amount
Dr. Deepak Bornare	National Sustainable Agriculture Development Programme	Department of Agriculture	25/05/2022	700000
Dr. babasaheb Sonawane	Rajiv Gandhi Science & Technology	Rajiv Gandhi Science & Technology Commission	17/01/2023	380000

8. Provide details regarding the composition of the IQAC:

- Upload the latest notification regarding the composition of the IQAC by the HEI [View File](#)

9.No. of IQAC meetings held during the year **2**

- Were the minutes of IQAC meeting(s) and compliance to the decisions taken uploaded on the institutional website? **Yes**

- If No, please upload the minutes of the meeting(s) and Action Taken Report [View File](#)

10.Did IQAC receive funding from any funding agency to support its activities during the year? **No**

- If yes, mention the amount

11.Significant contributions made by IQAC during the current year (maximum five bullets)

Planning for implementation of NEP 2020 from Academic Year 2023-24

Curriculum design for First Year in order to implement NEP 2020 from Academic Year 2023-24

Curriculum design for Third Year with respect to Autonomous framework

Student registration on the ABC portal

Participation in NIRF 2023

12.Plan of action chalked out by IQAC at the beginning of the academic year towards quality enhancement and the outcome achieved by the end of the academic year:

Plan of Action	Achievements/Outcomes
Curriculum design for First Year in order to implement NEP 2020 from Academic Year 2023-24	Curriculum Design for First Year is Completed. NEP 2020 will be implemented from Academic Year 2023-24.
Curriculum design for Third Year with respect to Autonomous framework	Syllabus Design is completed
Student registration on the ABC portal	Registration completed
Merger of Marathwada Institute of Technology and Maharashtra Institute of Technology, Aurangabad	Marathwada Institute of Technology and Maharashtra Institute of Technology under G. S. Mandal, Aurangabad have merged to create large Autonomous Institution in the name of G. S. Mandal's Maharashtra Institute of Technology, Aurangabad from 2022-23.

13. Was the AQAR placed before the statutory body? **No**

- Name of the statutory body

Name of the statutory body	Date of meeting(s)
Nil	Nil

14. Was the institutional data submitted to AISHE ? **Yes**

- Year

15. Multidisciplinary / interdisciplinary	

The curriculum has been designed for incorporating Multi-disciplinary and Inter-Disciplinary education to bring diversity in curriculum and to inline it with the vision of National Education Policy 2020. A detailed plan is outlined for NEP implementation from academic year 2023-24. Courses emphasizing on awareness, ethics, social responsibilities and stress management have been included in the syllabus like Professional ethics and Corporate Social Responsibility, Emotional Intelligence, Stress Management through Yoga and Constitution of India. Value added courses and skill enhancement courses are offered focusing on soft skills, communication skills, personality development and technical skills. The curriculum is designed for the holistic development of the students and grooming them as global citizens.

Electives are included in the curriculum of UG and PG programs. Honor and Minor degrees: Eligible Students can earn the Honor and Minor Degree along with their major degree by successfully earning additional 20 credits in the other disciplines (for Minor) and advanced courses in same discipline (for Honor). Following Honor and Minor Degree Courses are offered in various domains: Robotics and Automation, Internet of Things, Data Science, 3-D Printing, Electrical Vehicles, Green Technology and Sustainability Engineering, Artificial Intelligence & Machine Learning and Cloud Computing.

16.Academic bank of credits (ABC):

Institute has registered on the ABC portal. About 99% of students are registered on ABC portal and got the ABC ID. From AY 2023-24, Institute is uploading students' mark sheets and degree certificates through the nad.digitallocker.gov.in platform. The credits available in the other national portal will be considered for credit transfer as per the requirement of course completion.

17.Skill development:

The institute focuses on skill development activities for capacity building of the students. Following skill development courses are offered to enhance the skills and technical abilities of students:

- Red Hat
- Cloud Computing
- 3D Printing (Additive Manufacturing)
- Robotics Programming & Machining
- Automation
- Mechatronics

◦ Agriculture Sector

The aim of these courses is to bridge the gap between industry and academia. The courses are designed considering the industry requirements and focus on hands on experience to students. Some of these courses are in collaboration with the industries. Experts from industries are regularly invited for expert talks and workshops to make the students aware of latest industrial trends. The activities of NCC and NSS focus on developing life skills and social responsibility among the students.

The Training and Placement cell of the institute organizes trainings focusing on communication skills, leadership, teamwork and personality development to enhance the employability of students. Trainings specific to industry selection process are also conducted that focus on Group Discussion, resume building and interview skills.

18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

The institute has initiated the process for integration of Indian Knowledge System in its curriculum and NEP 2020 implementation from academic year 2023-24.

19.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):

The curriculum offered to students is designed keeping in mind the OBE approach focusing on regional and global requirements.

All the courses are designed with course outcomes clearly stated emphasizing on cognitive abilities of Remembering, Understanding, Applying, Analyzing, Evaluating and Creating.

The Programme Outcomes, Programme Specific Outcomes and the Course Outcomes are disseminated to the students and other stakeholders, and are displayed at various locations in the institute and at the departments.

The learning outcomes also focus on Professional Ethics, Gender equality, Human Values, Environment and Sustainability. With this the institute is committed to producing graduates who are not only technically proficient but also socially, economically and environmentally conscious.

An effective implementation of Outcome Based Education (OBE) ensures that all the Program Outcomes are addressed by the

curriculum of various programmes and can compete at national as well as global platform.

20.Distance education/online education:

- Credit transfer (credits transferred from SWAYAM/NPTEL w.e.f. AY 2021-2022)
- Credit transfer for extracurricular activities participation.
- Students are encouraged to enroll for SWAYAM/NPTEL courses to enhance their knowledge and is facilitated by separate committee.
- Faculties are also encouraged to upgrade their skills through SWAYAM/NPTEL courses.
- Software for GATE preparation and language lab are available for the students.

CURRICULAR ASPECTS

1.1 - Curriculum Design and Development

1.1.1 - Curricula developed and implemented have relevance to the local, national, regional and global developmental needs which are reflected in Programme Outcomes (POs), Programme Specific Outcomes (PSOs) and Course Outcomes (COs) of the various Programmes offered by the Institution.

The institute has adopted the systematic procedure for development, revision and implementation of curriculum of the programmes. The curriculum is designed to fit the institutes' model of Autonomy (regulated by AICTE, UGC and affiliated to university) and includes courses that reflect the local, regional, national and global needs. The institute follows the semester pattern and Choice based Credit System (CBCS). The curriculum design includes the following:

- Curriculum Structure, Syllabus and the Instructional System Design
- Course objectives, Course outcomes and instructional guidelines in line with the student centric development for their domain knowledge, skills and behavioral aspects.
- Examination Scheme

Feedback about the curriculum is taken from stakeholders like industries experts, academic experts, Students, employers, alumni, subject teachers for development of the curriculum. The draft curriculum with due consideration of feedback received is prepared by subject experts is discussed in departmental meetings. While designing the syllabus Program Outcomes (PO), Program Specific Outcomes (PSO), Program Educational Objectives (PEO) and opinions from industries experts, academic experts and other stakeholders are considered to ensure holistic design of the curriculum. To cater to the developmental needs curriculum design considers: Career Path module, Co-Curricular and Extracurricular activities, Honor and Minor Courses, In-plant Training, Engineering Exploration, Electives, Experience Based Learning, Major and Minor Projects, Environmental studies, Professional ethics, Gender, Human values. The draft curriculum is put up for review and approval in respective Board of Studies meetings. The approved curriculum by Board of Studies is presented to the Academic Council for final approval and implementation.

1.3 - Curriculum Enrichment

1.3.1 - Institution integrates cross-cutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability, and Human Values into the curriculum

The curriculum of Maharashtra Institute of Technology includes courses on professional ethics, gender, human values, environment and sustainability, and human values. This is part of our commitment to producing graduates who are not only technically skilled but also morally and socially responsible. The curriculum of Second Year has been revised and includes courses on Constitution of India, Professional Ethics and Corporate Responsibility, Emotional Intelligence and Stress Management through Yoga.

Maharashtra Institute of Technology shoulders the responsibility to inculcate the sense of social responsibilities, national security, and integrity. Many UG courses include topics related to human values, professional ethics, and encouraging students to pursue sustainable development and environmental preservation.

When it comes to admittance, jobs, and extracurricular activities, both genders are given equal opportunities. Students are encouraged to take part in awareness programmes conducted under NCC and NSS like:

- Encouraging rural girls' interest in Science and Technology
- Sensitization of students on women safety
- Encouraging entrepreneurial skills through hands on training.
- Blood donation camps
- Tree plantation

2.2 - Catering to Student Diversity

2.2.1 - The institution assesses students' learning levels and organises special programmes for both slow and advanced learners.

The institute has defined the following guidelines for the identification of weak students (slow learners) and bright students (advanced learners):

a) Identification of weak students (slow learners): The students scoring marks a 50% in internal examination are considered as weak student.

b) Identification of bright students (advanced learners): The students scoring marks more than 90% in internal examination are considered as a bright student.

Special actions/programmes for both slow and advanced learners:

a) For weak students (slow learners): The institute allows every department to apply methodology like remedial classes to support weak students and counseling through Teacher-Guardian Scheme.

For weak students, even concerned course teacher also helps them in solving various extra assignments, previous year question paper; etc.

b) For bright students (advanced learners): The bright students

are provided with an opportunity to enroll in various aptitude classes and participation in various competitions, training programmes, workshops and conferences.

2.3 - Teaching- Learning Process

2.3.1 - Student-centric methods such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences:

The NEP 2020 aims to provide a holistic and flexible learning experience to students by focusing on skills such as critical thinking and analytical, experiential learning, and creativity.

The institute has also given enormous emphasis on skills development of students through experiential learning, problem-solving learning and participative learning in different semesters.

a) Minor projects (semester V): Students are expected to learn about the concepts of engineering for solving real life problems.

b) Experiential/Problem based learning course (Semester V): Students are asked to identify an ongoing problem (technical, social or environmental). Here, students are expected to analyze the problem and propose solutions for the problem.

c) Major project: In semester VI and VII, the students work on

many interdisciplinary projects.

d) **Industrial Projects:** The students are also encouraged to work on real life industrial problems faced by industries in and around Aurangabad region under the initiative of GIZ, MASSIA etc. e) **In Plant Training (6 months duration):** The students of semester VIII have to complete the in plant training in industries to get exposure of industrial environment, work ethics and existing technological challenges.

f) The students are encouraged to participate in national and international level project competitions and exhibitions.

2.3.2 - Teachers use ICT-enabled tools including online resources for effective teaching and learning

The institute emphasizes the use of ICT that has critical role in engineering and technology education. The use of ICT in augmenting outcome based education for all the five important phases of quality technical education such as Analysis, Design, Development, Implementation, and Evaluation is practiced at the institute. It helps in designing activities, transfer of knowledge and skills addressing higher cognitive levels. The dimensions of ICT such Internet access (high speed wi-fi, LAN, cabled internet, online transactions-cloud data storage - institutional ERP) are utilized.

ICT tools for enhanced teaching-learning being installed and utilized are-

1. The classrooms and laboratories are ICT enabled with projectors installed and internet connection.
2. LMS and CMS platforms such as MOODLE, ERP are used to manage and course material, quizzes, submissions and evaluations, assignments, etc.
3. Virtual labs for conducting experiments through simulations
4. NPTEL, Coursera, Udemy, Edx etc. are used to complement the

syllabus and for content beyond syllabus.

5. The slides designed by course teachers include animations effective content delivery.

6. The facilities to record video lectures are provided to faculty members

2.3.4 - Preparation and adherence to Academic Calendar and Teaching Plans by the institution

A) Academic Calendar:

The Dean (Academics) prepares and distributes the 'Academic calendar' to all the stockholders before the commencement of the academic year. The components of academic calendar are:

1. Teaching learning schedule (working days)
2. Various curricular, extra-curricular, co-curricular events to be organized
3. Assessment and evaluation schedule (dates of internal examination, end semester examination etc.)
4. Holidays

In accordance to the academic calendar, every department prepares academic time-tables for conducting various teaching learning activities. The theory lectures, laboratory sessions, field

visits, tutorials, slots for faculty advisor meetings, library visits are planned.

b) Teaching Plans: As per the time table, course teachers are prepared their teaching plan of assigned course and it is available in their course file. Teaching plan is based on OBE and consist of the following aspects:

1. Dissemination of Program outcomes (POs), program specific outcomes (PSOs) and course outcomes (COs) 2. Lecture-wise content to be delivered, schedule date, relevance of content to COs, POs, PSOs, Bloom's Level (BL). 3. Similarly, Plan for laboratory session, tutorial sessions.

Institute conducts the periodic academic and administrative audits at department and institute level.

2.5.3 - IT integration and reforms in the examination procedures and processes including Continuous Internal Assessment (CIA) have brought in considerable improvement in the Examination Management System (EMS) of the Institution

Reforms are carried out in the examination and procedure to ensure a transparent and efficient examination system. Areas of improvement are identified through examination audits and feedback mechanism and the Dean (Examination and Evaluation) initiates the reform. The following reforms were carried out in the past five years:

Examination Calendar (EC) Evaluation Boards Result Analysis Review and Retotaling Question paper Audit Open House IT Integration in Examination and Evaluation Procedure End-to-End Automation of the examination procedure has been achieved by integrating information technologies in the examination and evaluation procedure. Below are the details of the integration: Online display of Exam notices through ERP and website Online registration for the End Semester Examination through ERP Automated seating arrangement through ERP Online publication of seating arrangement Utilization of Barcode Scanners for marks entry Online entry of CIA marks Online publication of results On Screen Evaluation IT Integration in Reforms in CIA LMS platforms are utilized to conduct CIA tasks Innovative CIE and TA tasks are given by the faculty members according to the requirement of the Course.

2.6 - Student Performance and Learning Outcomes

2.6.1 - Programme Outcomes and Course Outcomes for all Programmes offered by the institution are stated and displayed on the website and communicated to teachers and students

All programmes offered by institute follows the same 12 Program Outcomes (POs) as stated by the National Board of Accreditation (NBA). The course outcomes (COs) for every course of all programmes are defined based on the Revised Bloom's Taxonomy to enhance the cognitive skills of the students. The COs are defined by the course teacher and module coordinator and approved by board of study of respective programme.

The POs and COs of all the courses across all the programmes are displayed on the institute website. The POs, COs are disseminated to all the students in theory lectures, laboratory sessions, teacher guardian meeting, parents meeting. Additionally, the syllabus including POs and COs for all courses is shared with students by all course teachers every semester. The course file maintained by the course teachers also contains the POs, PSOs and COs for their easy assessment.

Every department also displays the POs in the department at various places by posters.

The COs for practicals is displayed in the respective laboratories as well.

File Description	Documents
Upload COs for all courses (exemplars from the Glossary)	No File Uploaded
Upload any additional information	No File Uploaded
Link for additional Information	https://mit.asia/wp-content/uploads/2023/05/SY-Mech-CO-PO-PSO-Mapping.pdf

2.6.2 - Attainment of Programme Outcomes and Course Outcomes as evaluated by the institution

The attainments of these POs and PSOs are carried out through courses, projects, co-curricular and extra-curricular activities in which performance of the students is evaluated. Course outcomes (COs) are designed and maintained as statements in Instructional System Design document. The syllabus is formulated in alignment to achieve the COs. The mapping of COs is done with POs and PSOs.

Course Outcomes Attainment Method:

1) Direct Assessment Tools: Mid semester exam-I & II, CIE & TA, End semester exam and laboratory exam

2) Indirect Assessment Tool for COs: Course exit survey

3) Indirect Assessment Tools for POs/PSOs: Program Exit Survey from students, Parents feedback during parents meet, Feedback from Alumni, Feedback from external examiners

4) Attainment of COs/POs/PSOs is obtained with 80% weightage to direct assessment mode and 20% to that of indirect assessment mode.

Attainment Level: The previous year average of course and/or internal evaluation average performance is used to set the attainment levels as minimum achievable, target and highest target level.

RESEARCH, INNOVATIONS AND EXTENSION

3.1 - Promotion of Research and Facilities

3.1.1 - The institution's research facilities are frequently updated and there is a well-defined policy for promotion of research which is uploaded on the institutional website and implemented

The institute provides all necessary infrastructural facilities and conducive environment to promote research activities. Faculty members are encouraged to apply for funds to the funding agency to promote their research. MIT's research facilities are frequently updated and upgraded to keep pace with the latest advancements in technology and methodologies. MIT has state-of-art laboratories and central facilities like workshop and center of excellence. Research centers are established in various departments of the institute with necessary software and computing facilities for carrying out research activities. The MIT-CARS laboratory provides testing and analytical facilities in the areas of agriculture, soil testing and food technology that is NABL and ISO accredited. The institute has center of excellence in Mechatronics and Robotics. The center collaborates with Siemens Private Limited for the training of personnel on their projects. The institute has advanced facilities like CNC machines and Laser cutting machine and is used for live demonstrations. MIT fosters a culture of interdisciplinary research, which often leads to cutting edge inventions. This dynamic approach to research infrastructure proves MIT's dedication to foster a culture of innovation and discovery.

3.3 - Innovation Ecosystem

3.3.1 - Institution has created an ecosystem for innovations and creation and transfer of knowledge supported by dedicated centres for research, entrepreneurship, community orientation, incubation, etc.

MIT fosters promotion of research and innovation by establishing the state-of-art infrastructure that includes that includes various centers of excellence, entrepreneurship and incubation cell and community engagement activities. The entrepreneurship cell at MIT comprises of faculty as well as industrial experts to nurture and promote the idea of start-ups and independent business through students. MIT encourages alumni network to help students to understand real-life situations in businesses and the challenges associated with the entrepreneurship. The MIT has state-of-art laboratory facilities including the NABL accredited MIT-CARS lab and ISO certified CAMRT polymer characterization lab. These labs provide various testing and analytical facilities in the field of agriculture, soil testing, food technology and polymer characterization. The MedTech lab at MIT is funded by Govt. of India and focuses particularly on development of medical implants and devices.

The community helping awareness and activities are an integral part of MIT culture. Through initiatives like Unnat Maharashtra Abhiyan (UMA), Unnat Bharat Abhiyan (UBA) and National Service Scheme (NSS) student and teacher volunteers arrange and work for activities like, cleanliness drives, surveys, medical camps, donation camps and Shramdam. MIT's Institute's Innovation Council (IIC) promotes collaborative environment to students and faculties alike to nurture their ideas with good industrial connect,

3.6 - Extension Activities	
3.6.1 - Extension activities carried out in the neighbourhood sensitising students to social issues for their holistic development, and the impact thereof during the year	
MIT fosters social assistance through two prime activities NSS (National Service Scheme) and through UMA (Unnat Maharashtra Abhiyan) and UBA (Unnat BharatAbhiyan). The main goal of the NSS is "education via community service and community services via education". The NSS wing at MIT undertakes two main activities;	

special camping programs and regular activities. Every year the special camp is conducted in nearby villages and different beneficial programs are conducted for the people over there. Throughout the year programs like cleanliness drive, tree plantation, blood donation camp and different programs are conducted under regular activities. The National Service Scheme (NSS) represents a remarkable endeavor to nurture the spirit of social responsibility and personal growth among young individuals. By providing them with a platform to contribute meaningfully to society, the NSS instills lifelong values of empathy, leadership, and selflessness. NSS volunteers work in rural areas, adopted villages to serve the cause of society through survey, education and health awareness. UMA and UBA is a government initiative under which MIT has adopted 2 villages for their development. Student and teacher volunteers alike work to facilitate these villages with basic amenities, habitation facilities, medical aid and educational needs.

4.1.2 - The institution has adequate facilities for cultural activities, yoga, sports and games (indoor and outdoor) including gymnasium, yoga centre, auditorium etc.)

The Institution has adequate facilities for cultural activities, sports, games (indoor, outdoor) and gymnasium. Cultural, gymnasium facilities are also available in the college. Physical fitness is of prime importance in order to bring out the best in every student. MIT understands that a healthy mind resides in a healthy body and hence includes a well-equipped gymnasium in the campus. There are also sports facilities like a spacious playground for games and recreation. Games like Cricket, Football, Kho-Kho and Volleyball are quite popular in MIT. MIT also has dedicated playing areas for indoor games like Badminton, Table Tennis, Carom, Chess etc. Along with all these facilities a daily yoga center also runs in the college campus for staff and students.

4.4.2 - There are established systems and procedures for maintaining and utilizing physical, academic and support facilities – classrooms, laboratory, library, sports complex, computers, etc.

The institute gives the great prominence to creation, maintenance and upkeep of the entire infrastructure necessary for the effective teaching-learning, positive development and efficient maintenance.

- **Laboratory:** The institutional laboratories are accessible to the students of the respective departments during the allocated hours as per the timetable.
- **Library:** The books can be availed from the central library by faculty members as well as students. A digital library section is also available for online referencing.
- The computer center facility is utilized for conducting various programs.
- Various sports facilities i.e. badminton court, basketball

court, table tennis are available on the campus.

- Electrical repair and maintenance work is carried out by Electrical wing of the institute.
- For maintenance of computing facilities, AMC contract is given to the external agency for the maintenance of computers and printers within the college.
- To maintain internet connectivity in all computers and CCTV security system, a network and system administration team is appointed. LCD projectors, air conditioners and water coolers are maintained with the help of the external agencies.
- Maintenance of Laboratory Equipment as and when required, the institution takes up calibration and other servicing measures for the instruments through service personnel periodically.
- General Security Measures -Trained Security Personnel are deployed at the college main gate, at all the department blocks, hostels and other strategic locations.
- CCTV Cameras are installed in various vantage points inside college campus.

GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - The governance of the institution is reflective of an effective leadership in tune with the vision and mission of the Institution

Maharashtra Institute of Technology, Aurangabad, and Marathwada Institute of Technology, Aurangabad under Gramaudyogik Shikshan Mandal (GSM) have merged to create a large autonomous institute under the name of Maharashtra Institute of Technology from the academic year 2022-23. To accomplish its vision the institute has a strong governance comprising of various bodies and central committees involving faculties at all levels.

Vision: MIT aspires to be a leader in Techno-Managerial education at the national level by developing students as technologically superior and ethically strong multidimensional personalities with a global mindset.

Mission: We are committed to providing wholesome education in Technology and Management to enable aspiring students to utilize their fullest potential and become professionally competent and ethically strong by providing,

- Well-qualified, experienced, and professionally trained faculty
- State-of-the-art infrastructural facilities and learning

environment

- Conducive environment for research and development.
- Delight to all stakeholders.

The governance comprises of Governing Body, Executive Council, Academic Council, College Development Committee (CDC), Board of Studies, and Internal Quality Assurance Cell (IQAC). All the stakeholders are contributing in governance through their valuable inputs. The Institute believes in promoting a culture of delegation of powers through strategic policies. The Director of the Institute is assisted by Deans, Registrar, HODs, Administrative Head, Section in-charges and coordinators of various committees in decision-making process at the Institute.

File Description	Documents
Upload any additional information	View File
Paste link for additional Information	Nil

6.1.2 - Effective leadership is reflected in various institutional practices such as decentralization and participative management

Faculty members are included at various levels in organizational structure and central committees for decentralization of work. Faculties involved at various levels are working together for the smooth conduction and monitoring of academic and administrative activities.

Designation of members who have been delegated powers for taking administrative decisions are:

- Director
- Registrar
- Dean
- Associate Dean
- Head of Department
- Assistant Training and Placement Officer
- Librarian
- Workshop Superintendent

The involvement of faculties and allotment of portfolios is done at the central level by the Director after discussion with the

Deans and the Head of the Department. At the department level, the Head of Department allots department-level work in consultation with the faculties.

Some of the committees that are formed that involve faculties for smooth functioning of the institute are: Governing Body, Academic Council, Board of Studies, IQAC, Grievances redressal cell for staff and students, Anti-ragging committee, examination committee etc.

For the smooth functioning of the activities of various committees, the committee head conducts regular meetings with the members of the committee. The concerned committee members work actively in coordination with the committee head. Reports of work done are submitted to the Director's office to monitor the smooth functioning of all the academic and administrative activities of the institute

6.2 - Strategy Development and Deployment

6.2.1 - The institutional Strategic/ Perspective plan has been clearly articulated and implemented

The institutional strategic plan is prepared keeping in mind the vision and mission of the institute. Discussions and meetings with various committees, administrative heads, and senior faculties are conducted to prepare the perspective plan. It addresses the requirements of all stakeholders.

To monitor the proper implementation of academic and administrative activities, regular audits are conducted. The Internal Quality Assurance cell appoints committees for these audits of course files, practical files, departmental portfolios, laboratory manuals, etc. Audit reports are shared with the respective Head of Department. Corrective measures are suggested and discussed in consultation with the Head of Department and Director.

The perspective plan is prepared in context with:

1. Curriculum Development
2. Teaching Learning
3. Examination and Evaluation
4. Research and Development
5. Library, ICT and Physical Infrastructure / Instrumentation
6. Human Resource Management
7. Industry Interaction / Collaboration
8. Training & Placement

6.2.2 - The functioning of the various institutional bodies is effective and efficient as visible from the policies, administrative set-up, appointment and service rules, procedures, etc.

For academic, financial, and general administrative affairs following institutional bodies and Supporting bodies are formed:

A. Governing Body B. Academic Council C. Board of Studies D. Finance Committee

Governing Body: A Governing Body of the autonomous Institute has been constituted as per the Norms of the University Grant Commission, which is the regulatory Body for approving autonomous Institutes in India. The Governing Body is collectively responsible for overseeing the Institution's activities, determining its future direction, and fostering an environment in which the institutional Vision and Mission is achieved.

Academic Council: The Academic Council is responsible for making decisions on all academics-related matters like rules and Regulations, Examination, Curriculum, and framing of academic policies of the Institute.

Finance Committee: The responsibility of the Finance Committee is primarily to provide financial insight for the Institute, which includes budgeting and financial planning, financial reporting, and the creation and monitoring of internal controls and

accountability policies related to the financial matters of the institution.

Supporting bodies:

CDC: The College Development Committee's (CDC) objective is to create an annual comprehensive development plan for the college that covers academics, R&D, finance, administration, placements, infrastructure, staff welfare etc., take reviews, and make recommendations for academic and administrative excellence.

IQAC: The objective of IQAC is to ensure quality education by planning, executing and monitoring activities that are necessary to enhance the education quality of the institute in line with UGC and NAAC guidelines.

6.3 - Faculty Empowerment Strategies

6.3.1 - The institution has effective welfare measures for teaching and non-teaching staff and avenues for their career development/ progression

- HR policies are an important component of "Talent Management

Processes" which are expected To help in attracting, recruiting, appointing, inducting, engaging, motivating, goal setting, performance appraisal, development, career management and retention of faculty and staff as well as facilitating transitions and exits. These policies aim to retain employees and foster continuous development of skills and competencies necessary for achieving short, medium, and long-term goals and objectives of the institution and individual as well as larger societal goals.

- The institute has effective welfare schemes for the benefit of its teaching and non-teaching staff.
- The Institute has a Grievance Redressal committee, Internal Complaint Committee, SC/ST Committee responsible to sort out the issues/complaints, if raised by any staff.
- The pay structure being followed is the sixth pay commission
- Faculty and staff are entitled to EPF and gratuity.
- All faculty and staff are insured for Life Insurance.
- Maternity leave of Six Months is provided for a maximum of two times.
- The institute encourages its teachers to acquire the latest skills by deputing them for various programs/conferences.
- The institute supports the teachers by providing Special Leave/Study Leaves to pursue Project/Doctoral/Post-Doctoral research.

Sports, Yoga Instructors are available to maintain a healthy and balanced life

6.4 - Financial Management and Resource Mobilization

6.4.1 - Institution conducts internal and external financial audits regularly

Institution conducts internal and external financial audits regularly to validate and monitor financial transactions during the financial year. The primary purpose for financial audits is to give regulators, investors, directors, and managers' reasonable assurance that financial statements are accurate and complete.

Department Heads / Section-in-charges are intimated of the extent of funds allocated against their budget proposals. Actions for procurement of lab equipment, up-gradation of existing lab facilities etc. are initiated from the respective departments and the funds are released on a case by case basis from the accounts office of the institute on approval by the Management.

Internal Audit:

Internal audits are conducted quarterly by the accounts section of the Institute and the Chartered Accountant. The audit of accounts and submission of income tax are carried out quarterly.

External Audit:

The accounts and procedures of finance are carried out by the accounts team on a daily basis. An annual audit of all heads of account is done by the authorized auditor. The audit of accounts and submission of income tax returns are carried out regularly each year.

6.4.3 - Institutional strategies for mobilisation of funds and the optimal utilisation of resources

The institute has a well-defined strategy for the effective mobilization of funds and optimal utilization of resources. The

Institute budget is prepared every year after compiling requirements regarding recurring and non-recurring expenditures from all departments and sections. All the major financial decisions are approved by the Governing Body (GB) which comprises institute authorities and members of G. S. Mandal. The budget is discussed and approved in the GB meeting. The resolution of the LMC and GB regarding budget approval is forwarded to the managing committee and Executive Committee (EC) of G.S. Mandal for final approval of the budget to utilize during the academic year under various heads.

Additional funding is obtained through Research proposals, consultancy works from governmental & non-governmental agencies and industries. These funds are utilized for research and laboratory development.

The institute has a well-defined mechanism to monitor the effective and efficient utilization of available financial resources for the development of academic processes and infrastructure development.

The purchase procedure such as calling quotation, technical bid, preparing a comparative statement, and negotiation meetings are followed for effective and efficient use of available finance resources. In addition to this, the account of each financial year of the institute is audited by internal and external auditors

6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing quality assurance strategies and processes visible in terms of incremental improvements made during the preceding year with regard to quality (in case of the First Cycle): Incremental improvements made during the preceding year with regard to quality and post-accreditation quality initiatives (Second and subsequent cycles)

Post-accreditation period, the IQAC of the institute has taken all the efforts and measures towards quality assurance and enrichment in academics and administrative capabilities.

- Academic review is conducted twice a semester.

- **Academic audit:** The academic audit is conducted twice a semester by the audit committee.
- **Administrative audit:** The administrative audit is conducted to monitor activities at various departments.
- **Feedback:** Feedbacks are taken from stakeholders and corrective measures are suggested.
- **Autonomy:** The Autonomy visit was successfully conducted in the month of September 2019. The autonomy is granted as a result of quality efforts taken by the Institution.

NBA Accreditation: The UG Engineering programs have been granted Accreditation by NBA for CSE and Mech for three years from 2022-23 to 2024-25

6.5.2 - The institution reviews its teaching-learning process, structures and methodologies of operation and learning outcomes at periodic intervals through its IQAC as per norms

The IQAC of the institute conducts regular audits and takes steps to improve the quality of the teaching-learning process.

Academic audits are conducted in adherence to the academic calendar planned for each semester. The objectives of academic reviews are to understand the effectiveness of course delivery, syllabus completion status, the methodology used, student attendance, and the outcome achieved for every course.

The feedback system is conducted stringently to understand student's views related to teaching and other facilities. Corrective measures are suggested and monitored for its implementation..

7.2 - Best Practices

7.2.1 - Provide the weblink on the Institutional website regarding the Best practices as per the prescribed format of NAAC

Teacher Gurdian Scheme

Institute has launched dedicated Teacher guardian in every department where faculty from respective departments take care of problems of students. Student also get career guidance, get to know about new opportunities from their guardian.

It was observed that students were hesitate to share their issues with subject teachers or higher authorities. Student need mentorship which helps them a lot. Each faculty member is assigned with 15 to 20 students. Weekly meetings are conducted with the students' groups. Gurdian interacts with the parents too regarding the progress of the student. It is observed that student share their problems, issues with teacher guardian. Guardians keep track of progress of student in various subjects. They provided students with resources using which performance was improved.

Training and placement activities

Regular training placement is imparted in the area of communication skill and aptitude to the students to make them employable. The final year program also consists of in-plant training in the final semester. Through the practice students with particular skill set are offered training at related industries.

Student employability is a key indicator of success of the institute. To make students employable, they need to have field related skills as well as soft skills. The Career path module is implemented from first year students. Regular sessions are organized related to field related skills and soft skills.

7.3 - Institutional Distinctiveness

7.3.1 - Highlight the performance of the institution in an area distinct to its priority and thrust (within a maximum of 200 words)

Microenterprises at MIT Aurangabad - MIT is setting up many laboratories and facilities. The user while learning to use these facilities does it with some purpose. The purpose is to render some service of value to the industry or community or to develop some product. Microenterprise in this sense encourages people to be responsible for what they do with the resources given to them. It rewards performers by giving them the authority to spend the resources they generated. It is a Micro Idea with Macro Impact".

- Enhancing employability in the area of plastic engineering through skill development trainings and manufacturing support.

- Encouraging Entrepreneurship to students and new comers.

MIT Center for Industry Relevance in Polymer Science and Technology (M CIP)- an industry scale Plastic manufacturing plant to nurture young talents with an entrepreneurial and global mindset.

MIT- Center for Analytical Research Studies

MIT- Center for Analytical Research Studies (MIT-CARS) is another micro enterprise established for catering the needs of farmers, industry, researchers and all other stakeholder across the globe.

MIT-Siemens Center of Excellence Center of Excellence in Automation

To deliver knowledge of the content in the Mechatronics Systems

To deliver knowledge of the content in the Automation fundamentals and systems

This knowledge would enable the students to: Take a productive, self-organizing part in a project team understand and translate

customer wishes to technical requirements to reach.
