**About FAB**

FAB is a festival to celebrate ideas and experimentation within the realm of architecture and building. This event gathers design disruptors, thinkers, and thought leaders who are dedicated to shaping the future. This initiative includes a conference, webinars, studios and an exhibition featuring visionary professionals, labs, and educational institutions. VISION: To ignite dialogue among the global design fraternity and unite them to leverage design interventions, innovations and technology to build a better future.

Speaker: Mike Tonkin & Anna Liu, Founder & Director, Tonkin Liu
8. Topic: Reinvestigating how we build things  
Speaker: Nripal Adhikary, Founder, ABARI

**Outcome –**

As an attendee and civil engineer at the FAB 2024 architectural conclave held at Bandra Mumbai Raheja auditorium, we had gain insights into cutting-edge architectural designs, sustainable building practices, innovative construction materials, and technological advancements in the field. We had also network with industry leaders, exchange ideas with fellow professionals, and potentially discover new opportunities for collaboration or projects.
