## MESSAGE FROM FACULTY TO INSPIRE

Dear all,

With the publication of this third (annual) edition of this e-magazine, I can sense the excitement and coming of age in students' writing and their approach to express their abilities. I am very happy to see many quality articles & arts that this AY 2019-20 edition of STHAPATYA contains. The magazine is showcasing the activities that the Department of Civil Engineering, its students and its faculties undertook. These activities enabled all of us to have a better interaction, improved trust and enhanced knowledge transfer. It is demonstrating our commitment to work together toward knowledge societies. I am sure the readers of this magazine will find it entertaining and informative.

This edition is coming out at a time when we are facing a test of our lifetime. This COVID-19 shows us that we must be ready for quick changes at the time of great challenges. The flexibility and ability through which we can make a course correction will dictate our possibilities to achieve successes. One spontaneous action that we took is shifting from campus teaching and learning to ERP based online classes. I am sure, one year down the line you all will have lots of experience to share about our online teaching approach. We would like to see some analytical articles written our students and faculties in the next edition of this magazine. We would like to learn from our collective experiences.

I am positive that this e-magazine will evolve further and will become a valuable platform for sharing ideas, experience & exposure between current students, alumni, faculties and department.

Keep learning & stay safe

**Prof. Rashmita Srinivasan**  
HOD Civil Engineering Department

Dear students,

As we all know in this era of high unemployment, the most important and highly coveted posts for graduate engineers specially civil engineer in government sector are acquired through competitive exams. So, it becomes very essential to have awareness of competitive exams conducted by various authorities. Engineering services as well as Civil Services exams conducted by UPSC/MPSC and GATE exam conducted by IITs are the major roots to acquire a high-profile career. Syllabus of these competitive exams is similar to the syllabus taught to the graduating students; just an approach has to be different for each.

You might be going through inferiority complex and thinking that we are in a private college of a small city and we cannot compete with highly talented IIT students at national level examinations but believe me it is just a myth and nothing more. I personally have observed that students of MIT possess potential to crack any exam, you just need appropriate directions at appropriate time, and that's what teachers are for. Remember- **"A teacher is only a ladder and not an escalator!"** Students should utilise knowledge imparted by the teacher as a strong base, show zeal to go deep into subject and widen the scope of their knowledge. There is no elevator to success. There are only steps. Climb them.

If you are low on confidence or ever feel depressed about studies while preparing for competitive exams just because you are not from IITs or other highly reputed colleges, just remember, from our civil engineering department there are students who had sincerely studied, and competed at national/state level exams and have scored excellent marks. Considering the fact that how your seniors have tasted success, I feel you should start preparing for competitive exams at the earliest. If they can, then you must. But remember that Individual effort is necessary to achieve goals and sustain success in life.

## आई बाबा

सुर्य मावळतो उगवण्यासाठी  
चंद्र उगवतो जगवण्यासाठी  
आकाश आहे निर्विघ्न छायेसाठी  
पृथ्वी आहे निसर्गरम्य मायेसाठी

माणूस जगतो इतरांसाठी  
इतरांचेजीवन जीवून सुखी करण्यासाठी  
देवानेच हे सर्व निर्मिले  
का त्याने मानवाला घडविले?

मानव आहे एक चुकीचा पुतळा  
कारण तो जीवनात करो फार चुका  
मानवाचे जीवन आहे एक कथा  
जसे समुद्रात बुडत असलेली नावका

सागर आहे अथांग निर्मळ  
नदी जाऊन मिळते त्यास खरोखर  
जसा निसर्गातील हा एक नियम  
आई जशी माऊली उन्हतील सवली

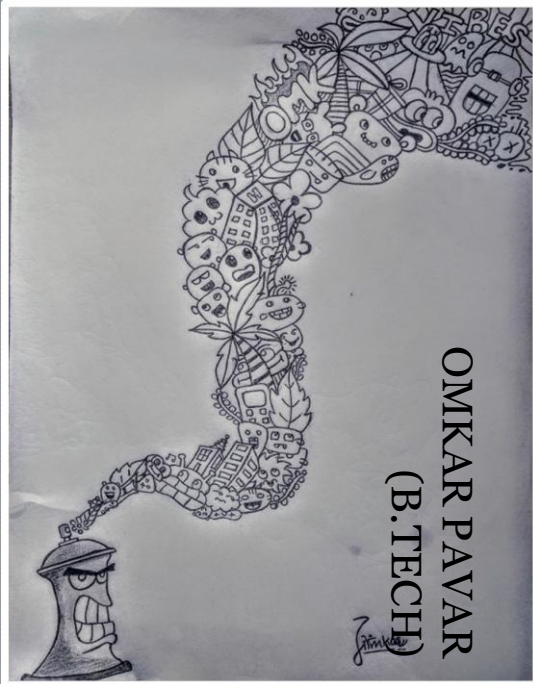

आईचे प्रेम जणू अथांग महासागर  
अथांग महासागरात बुडालेले जणू,  
मोत्यांचा हिरा  
स्वर्गातील सापडलेले जणू स्वप्नांचा तुरा  
स्वप्न रूपी चंदन जसे फुलांचे बन  
फुल जसे सुगंधी, हिरा जसा चमकदार  
आहेत माझे आई बाबा या सर्वजगात  
माझ्यासाठी खास!!!

### BACHPAN ME MUJHSE

Uski aankhon me to jaise ek zamana  
rehta tha  
The hazaro ashik aur ek deewana  
rehta tha  
Dard bohot sahe hal wafa me us  
anjaan shaks ne  
Dil ke mandir se bada uska mai-khana  
rehta tha.

Toote hue dil ki daastan hi kuch  
ajeeb hoti hai  
Har ek anjaan shaks se wafa ki umeed  
lagaye rehti hai  
Mai raabta bhi kya rakhta us naadaan  
parinde se  
Jo sirf ek tahni tutne par naya pedh  
dundh leta hai.

Bachpan me mujhse wo is kadar jud  
gaya  
Wo kabootar tha bada hote hi ud gaya.  
Judai ka sabab usne sabko sunaya tha  
Katil ne khud hi ko begunah bataya  
tha.

Us phool ne iske saath bhi siyaasat ki  
Jis kaate ne uski umr bhar hifaazat ki.  
Usse milne ke liye apno se ladai ki hai  
maine  
Kisi bewafa ke liye apno se bewafai ki  
hai maine.

### HUMANITY IS LOST

Yeh hai ek aaj k bharat par  
iski secularity iski humanity  
par  
aaj ka india religiously biased  
hota ja raha hai  
sab khuda k naam se baante ja  
rahe hai  
humanity is lost  
rashtriyata ka galt leason  
padhaya ja raha hai  
so its called Aaj (present)

“Munasib nahi ki har jawab  
mera ho  
Mere kuch sawaal bhi hai  
Zamane k jo aaj hai haal  
Ispe mere kuch khayal bhi hai  
Waise toh nasha hai zamane  
mein  
sabko saans leene ka  
Par jeene ki riwayat( customs)  
is zamane ko filhaal nahi hai  
So ab Khuda k hawale hai sab  
Kya main, kya tu  
Kya mera rab  
Kya tera rab”
