**Gist of the event:** The workshop on UI/UX Design was conducted by Ganesh Kharde, a TY AIDS student, for SY students. The session covered fundamental principles of UI/UX, usability guidelines, wireframing, and prototyping techniques. Attendees engaged in interactive activities and hands-on exercises to apply their learning practically.

In addition to conducting the workshop, it was announced that Ganesh Kharde has been selected as the GDSC (Google Developer Student Club) Lead for the institute. He successfully cleared the technical round and an interview conducted by Google, earning this prestigious role. This achievement highlights his technical expertise and leadership capabilities, setting an example for other students.

The **UI/UX Design Workshop** was a success in providing participants with both theoretical knowledge and practical skills. They left with an understanding of key design principles, hands-on experience with popular tools, and a clear idea of the design process. Moving forward, further workshops and advanced sessions will help participants dive deeper into specialized areas such as advanced prototyping, design systems, and user research techniques.
