1. **Event Date:-** 7th January 2023

2. **Event: - "**Workshop on Hands-on training with the Robotic Process

Automation Ui Path Tool"

3. **Speakers at the Event: -** Mr. Ruchir Satish Mahajan, Globant India Pvt.

**Objectives:** • To make the students aware about the concepts of Robotic Process Using Automation Ui Path Tool
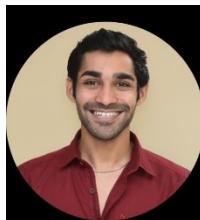

**Outcome:** • Awareness of Automation Ui Path Tool

**Gist of the event:**  The workshop was attended by over 56 students and faculty members of Artificial Intelligence and Data Science. UiPath is a robotic process automation tool for large-scale end-to-end automation. It uses a variety of methods to transform tedious tasks into automated processes.

 RPA is nothing but   Robotic process automation (RPA) is a software technology that makes it easy to build, deploy, and manage software robots that emulate humans' actions interacting with digital systems and software. Benefits of Ui path includes Increased Productivity, High efficiency, Customer Experience, highly secure, Cost effective etc.

 He focuses on UI path tool and it's the uses and development. He introduced with the major three Components of Ui Path studio i.e Ui Path Studio, Ui Path Robot and Ui Path  Orchestrator

Various application of Ui Path Studio, Attended Unattended and Hybrid robots and their Examples were even explained. To extend our sincere gratitude and appreciation to the speaker for your valuable contributions in making this webinar a great success. I hope this wrkshop has been fruitful to all participants and that you will be able to make the most from the sessions you attended. Through a wide range of presentations and discussions,
