

G.S. Mandal's

Maharashtra Institute of Technology Aurangabad

Department of Emerging Science and Technology

1. **Event Date:** 6 Janu 2023
2. **Event:** Technical talk on Artificial intelligence
3. **Speakers at the Event:** Mrs.Medha Deshpande

Objectives: To introduce participants to the applications and real-world use cases of Artificial Intelligence (AI).

Gist of the event: During the session, Mrs. Deshpande shared insights into AI's transformative role across industries, focusing on practical examples. One key example she discussed was a laundry service in the United States that uses AI to optimize operations—demonstrating how AI can automate and enhance even routine services. Through examples like this, she illustrated AI's broad applicability, from improving customer satisfaction to streamlining business processes.

Approximately 70 students were present for the session

Outcome: Attendees gained a clearer understanding of AI's real-world impact and possibilities, particularly in service-oriented industries. The talk effectively acquainted participants with AI fundamentals and inspired them to consider AI's potential in diverse fields.
