• सस्नेह निमंत्रण •

आपको आमंत्रित किया जाता है कि हम 24 मार्च 2026 को
एमआईटी कॉलेज, छत्रपति संभाजीनगर
में सभी वॉटरप्रूफिंग उत्पादों पर 1 दिवसीय प्रशिक्षण सत्र का आयोजन कर रहे हैं।
आवेदक इस प्रशिक्षण कार्यक्रम के लिए पात्र हैं। आपकी उपस्थिति अनिवार्य है।

तारीख : 24 मार्च 2026 | समय : 9.30 am
स्थान : Department of Civil Engineering - MIT college, Chh. Sambhajinagar

UltraTech WEATHER PRO Waterproofing System

1. Introduction

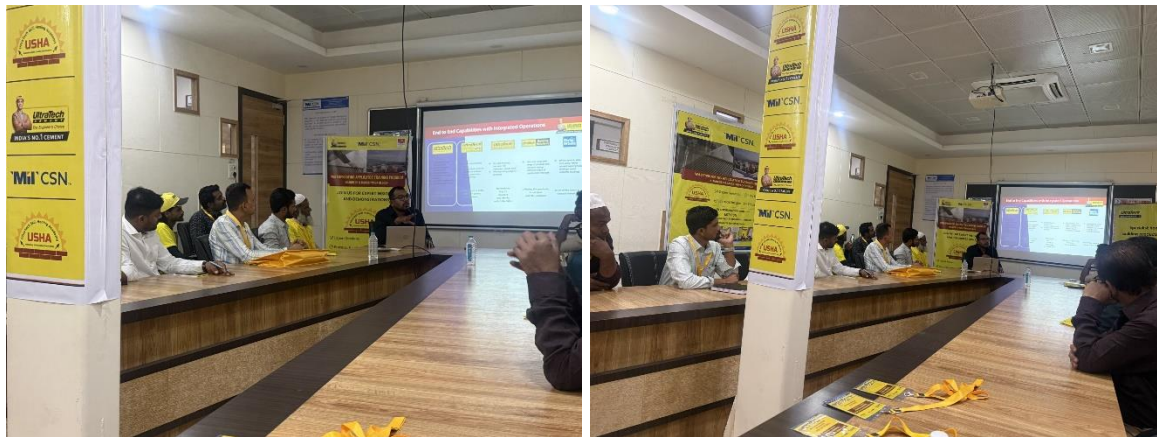

The Department of Civil Engineering, G.S. Mandal's Maharashtra Institute of Technology, Chhatrapati Sambhajinagar, organized a **One Day Training-cum-Workshop on “Waterproofing Applicator Training Program”** on 24 March 2026 in collaboration with

UltraTech Cement Limited. The program was designed for industry professionals to enhance their knowledge and practical skills related to modern waterproofing techniques used in the construction sector.

2. Objective of the Program

The training program was organized with the following objectives:

- To provide practical knowledge about waterproofing materials and technologies.
- To enhance the technical skills of industry professionals in waterproofing applications.
- To promote quality construction practices and improve building durability.
- To create awareness about modern waterproofing solutions in the construction industry.

3. Details of the Program

The training program included technical sessions conducted by experts from UltraTech Cement Limited. The experts explained various types of waterproofing materials, their applications, and the importance of proper waterproofing in construction projects. Demonstrations were conducted to showcase correct application techniques and quality control practices. Participants gained hands-on exposure to different waterproofing products and learned about practical challenges faced during construction.

4. Key Highlights

- Technical sessions on modern waterproofing techniques
- Demonstration of waterproofing materials and application methods
- Discussion on common construction defects due to improper waterproofing
- Hands-on training and interaction with industry experts

5. Outcomes of the Program

- Participants gained practical knowledge of waterproofing technologies.
- Improved understanding of quality construction practices.
- Industry professionals enhanced their technical skills for effective waterproofing applications.
- Strengthened collaboration between academia and industry.

6. Conclusion

The One Day Waterproofing Applicator Training Program was successfully conducted and received a positive response from the participants. The program proved to be highly beneficial in enhancing the practical knowledge of industry professionals and promoting the adoption of modern waterproofing solutions in the construction sector.
